

A man with short grey hair, wearing a blue long-sleeved shirt and khaki work pants with knee pads, sits on a metal beam. He is wearing a watch on his left wrist and a ring on his left hand. In the background, there are stacks of metal pipes and a green tree. In the foreground, a pair of brown leather work boots lies on the ground.

Welcome

Welcome to the Bisley Workwear Volume 10 catalogue

This is your complete guide to the full Bisley product range of Workwear, Safetywear and Protective wear.

The Bisley design team have been working hard to continually innovate new and exciting products that you, our customers have asked for.

The new generation Flex & Move range takes working and comfort to the next level.

Featuring more stretch and stronger crotch gussets to prevent splitting along with Kevlar knee patches for increased durability and tough Cordura® reinforcements in all the right places and utility inspired pockets to keep everything you need in arms reach.

Our Painter's workwear range combines a modern fit, outstanding comfort and freedom of movement with exactly the right built-in functionality you need to get your job done.

A big company with a history built on small company values

Synonymous with quality, exceptional service and value for money, Bisley Workwear has been shaping the Australian Workwear clothing industry for nearly 60 years.

Australian owned and operated, Bisley offers a comprehensive range of Workwear, Safetywear and Protectivewear for both men and women. Long regarded as one of Australasia's most trustworthy, solid and honest brands, Bisley is the market leader in specialist branded Workwear apparel.

As one of Australia's fastest growing Workwear brands, Bisley prides itself as a company with old fashioned values: "We value integrity, so we do what we say we're going to do, on time and on budget." Bisley partners with brands that share these values and business integrity.

By partnering with the biggest and best independent testing laboratories and using the latest innovative technologies to develop their garments, Bisley maintains the highest quality and levels of compliance of their Workwear, Safetywear and Protectivewear for men and women.

We put our customers first every time, servicing even the biggest orders with industry-best daily replenishment order fulfilment. Bisley's consistent quality performance and service exceed our customer's expectations.

It's the exceptional quality, competitive pricing and reliable accessibility of Bisley that sets this hardworking brand apart from the competition.

Introducing Fresche Antibacterial Treatment

ALL BISLEY WORKWEAR NOW HAS
FRESCHÉ ANTIBACTERIAL PROTECTION

NON LEACHING

Fresche is permanently bonded into (or onto) products during manufacture

SAFE FOR HUMANS

Fresche is biobased, with the active ingredient sourced from natural coconut oil

SIMPLE INTEGRATION

Fresche is easily applied during manufacture of natural or synthetic substrates

LONG TERM PROTECTION

Fresche locks and bonds to textiles to provide continuous long term protection

A PROVEN SOLUTION

Fresche has been fully validated in more than 250 independent challenge tests

✔ Prevents odours caused from bacteria growing in your garment

✔ Protects your garment from stains caused by mould and mildew

✔ Derived from coconut oil. A sustainable and renewable resource

✔ Long term durability when treated in accordance with the care label

Every hard worker knows that with hard work comes sweat. The growth of bacteria from perspiration can lead to stubborn odours and stains that no amount of washing can remove.

Fresche microbial control and protection treatments are a new and highly effective approach to long term protection against bacteria and fungus. This means your Workwear will remain clean, fresh and free of odour.

The solution is invisible when applied, and will not impact or change the feel, colour or appearance of the garment. Fresche is derived from coconut oil. A safe, sustainable and renewable resource.

Innovation

With nearly six decades of experience delivering hardworking clothing, Bisley continues to engineer new and innovative Workwear that handles the toughest jobs of the 21st Century.

Inspired by the Australian worker, our Workwear provides the ultimate in style and safety. Every garment is tested to meet the highest standards of quality control. Bisley makes quality Workwear for the big jobs, without compromising form for functionality.

Flex & Move Taped Hi Vis Utility Shirt

Bisley
WORKWEAR

**FLX &
MOVE™**

THE HI VIS UTILITY SHIRT OFFERS GREAT FLEXIBILITY AND COMFORT WITH A MODERN FIT

The Flex & Move range features materials such as mechanical stretch cotton, canvas and denim designed to offer a better fit and more stretch.

Garments are enzyme washed to ensure every Flex & Move piece has an authentic, soft, worn-in look and feel from the moment you pull them on. Utility-inspired pockets on the shirts will keep everything you need secure and within arms reach.

MADE TO MOVE WITH YOU

THE ULTIMATE WORK PANT

The new generation Flex & Move is a hard-wearing range designed to move with you comfortably all day, without restriction.

A stronger crotch gusset to prevent splitting along with Kevlar® knee patches for increased durability and tough Cordura® reinforcements in all the right places ensure these pants will withstand the toughest day on the tools.

Winter & Wet Weather

In wet and cold conditions, you need versatile and comfortable gear that will keep you warm and dry. Our new wet weather jackets are designed to be lightweight but incredibly warm.

All Bisley waterproof garments are fully seam sealed and boast technical features like storm flaps, concealed hoods and adjustable sleeve cuffs for increased protection against the elements.

Taped Hi Vis FR Wet Weather Jacket

Flame Resistant

The latest range of flame resistant lightweight Safetywear ensures comfort during times of extreme heat stress, as well as the confidence that Bisley Workwear offers the highest level of protection.

- TenCate Protective Fabrics, the world's largest inherent FR fabric manufacturer
- Bisley has the largest range and volume of FR stock on hand in Australia
- Tecasafe® Plus is manufactured in the USA using the highest quality branded fibres
- Bisley has back up fabric held in our factories and shortest possible lead times on delivery
- Tecasafe® Plus production processes are of the highest standard, including UL certification
- Reputable testing is carried out on each batch of fabrics and tests are kept on record
- The fabric is tested to European and US standards
- Vented and non-vented options are available in most garments
- Bisley's sales force is trained and knowledgeable with regards to FR standards

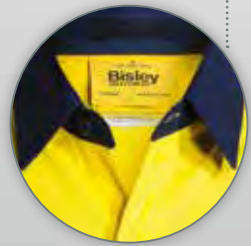

Bisley
FLAME RESISTANT

Australian & International Standards

Bisley Workwear garments are developed and tested to meet stringent industry standards and deliver work health and safety (WHS) solutions.

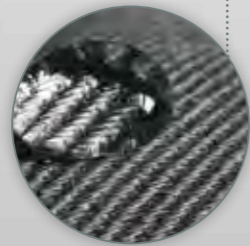

AS/NZS 2622:1996

Bisley Workwear garments meet the requirements of AS/NZS 2622:1996, which outlines the method for labelling of fibre content in textile products.

AS 2001.2.18-1987

Bisley Workwear 'waterproof' garments are deemed compliant when no water has passed through it over an 18-hour period. These garments have a water-repellent or water-resistant coating that stops moisture from reaching the wearer in wet weather conditions.

AS/NZS 1020:1995

Bisley Workwear offers a large range of natural cotton fibre products, which naturally avoid the generation of static electricity by remaining neutral, therefore increasing the wearer's comfort.

ISO 14184-2:2011

Fabrics used in Bisley Workwear garments are tested regularly to ensure that naturally created formaldehyde levels are kept to the safe minimum standard set out by the ACCC (Australian Competition & Consumer Commission). Bisley Workwear garments are free from formaldehyde.

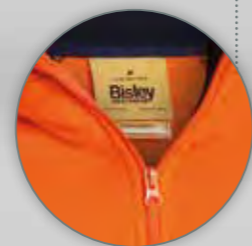

AS/NZS 1957:1998

Bisley Workwear garments meet the requirements of AS/NZS 1957:1998 that outlines the care instructions needed to ensure proper care of the garment.

AS/NZS 2392:1999

Bisley Workwear garments meet the requirements of AS/NZS 2392:1999, which outlines the method for permanent labelling with the brand name, size, care instructions, fibre content and country of origin.

AS/NZS 4602.1:2011

This standard specifies the visual requirements for high visibility safety garments for occupational wear by people who may be exposed to the hazard of moving traffic, moving plant or equipment in high risk situations. The standard covers garments suitable for day-time wear, night-time wear where they will be seen by retroreflected light or for wear under both conditions in the relevant high risk situations, with minimum requirements for high visibility garments.

AS/NZS 1906.4:2010

Bisley Safetywear garments use high visibility materials made from durable woven or knitted fabrics and are tested for high daytime visibility. Our high quality fabrics and retroreflective tapes for use at night are tried and tested to this standard to ensure you're protected in high risk situations.

AS/NZS 4399:2017

All garments that comply with this standard deliver ultraviolet protection, commonly known as UPF. Where the most effective sun protection is required, we recommend a garment that covers the full arm and leg area and has a sun protection rating of UPF 50+.

Understanding Our Bisley Icons

Our range of Workwear is developed with features to protect you from rain, static, open flames and more...

HIGH VISIBILITY MATERIAL
Bisley Safetywear High Visibility garments are developed to be seen in high-risk environments and protect you from work place hazards.
AS/NZS 1906.4:2010

HI VIS DAY ONLY
Class D. Day only garments are developed to be worn during the day time only and never at night. Hi Vis colours are used to ensure you're seen in high-risk environments.
AS/NZS 4602.1:2011

HI VIS DAY OR NIGHT
Class D/N. Day/Night garments are developed to be worn both during the day and also at night. Hi Vis colours accompanied with retroreflective taping offer maximum protection.
AS/NZS 4602.1:2011

HI VIS NIGHT ONLY
Night (N) Only garments are developed to be worn during the night time only as the retroreflective taping offers visibility from vehicle headlights.
AS/NZS 4602.1:2011

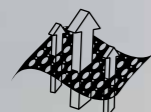

SUN PROTECTION
The ultraviolet radiation transmitted through a fabric to the skin is measured and given a rating of 15 (min protection), 30 (good protection), 50, 50+ (excellent protection).
AS/NZS 4399:2017

INDUSTRIAL
Reinforced stitching, bartacks, rivets and heavy duty fabrics mean Bisley Workwear products with this symbol have been developed for industrial environments or work places.

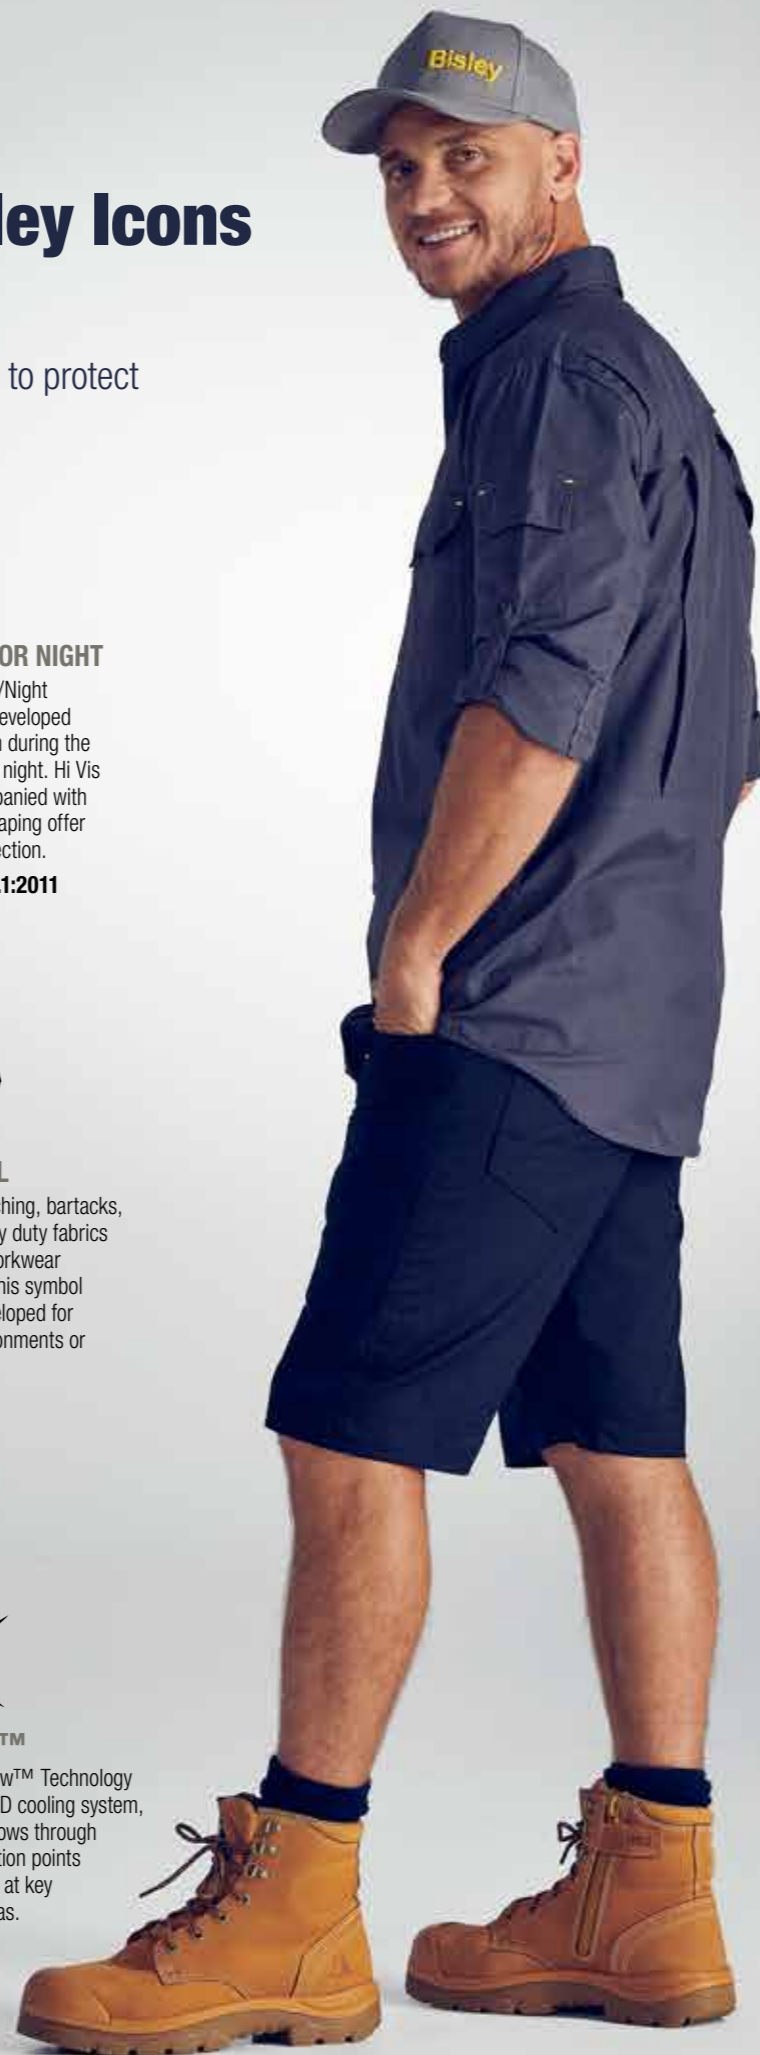

STATIC CONTROL
Certain natural fibres do not attract static electricity (static neutral) and therefore reduce the risk of an electric shock to the body. 100% Cotton is the most common static control in garments.
AS/NZS 1020:1995

COOL LIGHTWEIGHT
We recognise the need for developing lightweight, breathable garments and have added mesh ventilation to key perspiration points on some garments.

X AIRFLOW™
Bisley's X Airflow™ Technology is based on a 3D cooling system, where the air flows through multiple ventilation points on the garment at key heat stress areas.

COLD WEATHER
Garments designed to keep you warm in cold weather.

SHOWERPROOF
Resistant to light rain. Fabric is either treated with an outer coat finish or a waterproof membrane is added to the reverse side of rainwear fabrics. Generally if a garment repels liquid on the outside and is not fully seam sealed on the inside, it is also categorised as showerproof.

WATER RESISTANT
Water resistant membranes are often added to the reverse side of rainwear fabrics to ensure that no water can penetrate from outside, water resistant garments are fully seam sealed on the inside keeping you dry in wet weather.
AS 2001.2:18-1987

BREATHABLE
Fabric is breathable or the garment is designed with ventilation.

STRETCH
Built in stretch that allows greater ease of movement when working.

INDUSTRIAL WASH
Bisley premium Industrial range is designed to withstand industrial washes at 75°C. Using superior imported German dyes for greater colourfastness and superior industrial strength 3M 9920 reflective tape.

BIOSCIENCE FRESCHÉ
Fresche microbial treatment is a highly effective approach to long term control and protection against the growth of bacteria and fungus which causes stubborn odours and stains. Fresche is invisible when applied, it will not impact or change the colour or feel of the garment. Fresche is derived from coconut oil a safe, sustainable and renewable resource.

EASY-FIT
Whether you're an 'in-between' size or you prefer a comfortable stretch for freedom of movement, garments developed with an easy-fit can provide an ergonomic adjustment with no change to look or feel.

MOISTURE CONTROL
Hydrophilic garments pull perspiration away from your skin to the outer layer of the fabric where it is able to evaporate faster, leaving your skin fresh and without excessive perspiration.

STAIN REGUARD
DuPont, the world leader in fibre and fibre treatment technology use their ingenious stain release technology to provide garments with an easy cleaning solution.

FLAME RESISTANT
Garments made with fabrics that self-extinguish when the source of ignition is removed. The most commonly used test method is
ASTM D6413

PPE
PERSONAL PROTECTIVE CLOTHING (PPE) – NFPA 70E GUIDELINES
The categories in which ATPV ratings are classified. Each classification represents a level of protection.
· PPE 1: 4 cal/cm2 minimum
· PPE 2: 8 cal/cm2 minimum
· PPE 3: 25 cal/cm2 minimum

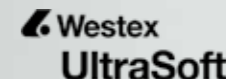

ATPV RATING
The minimum incident energy (in Calories per cubic centimetre) that protective equipment can be exposed to, to prevent the onset of a second-degree burn.
NFPA 70E

3M REFLECTIVE TAPE
Bisley Safetywear utilise 3M retroreflective tape with patented retroreflection technology in 99% of the Hi Vis range. 8910 tape is for general domestic wash, 9920 is for industrial wash and 8935 is for flame resistant garments.
AS/NZS 1906.4:2010

TENCATE TECASAFE® PLUS
Engineered as a more comfortable and durable alternative to existing industrial FR fabrics, Tecasafe® Plus provides superior arc flash and flash fire protection. Featuring the enhanced comfort of Coolderm Technology, Tecasafe® Plus offers a proprietary fibre blend to keep you cooler when it's hot and drier when it's cool. With active moisture wicking and excellent breathability, Coolderm Technology keeps the wearer worry-free and very comfortable.

WESTEX ULTRASOFT®
UltraSoft® was created with a unique blend of 88% cotton and 12% high-tenacity nylon to provide a soft feel for greater comfort, enhanced wear life and protective performance. UltraSoft® is guaranteed flame resistant for the life of the garment in either high-temperature industrial or home washing procedures. That makes it ideal for enhanced protection from electric arc and flash fire exposures, as well as multipurpose protection from electric arc flash, flash fire, molten ferrous metal and welding exposures.

TTMC-W
Bisley Safetywear garments comply with NZTA (New Zealand Transport Agency) code of practice (CoPTTM) Temporary Traffic Management Control - Wet (TTMC-W). This code of Practice specifies the standard of safety garments that a worker must wear while working in or close to hazardous traffic areas.

INVISTA™ CORDURA®
Some Bisley Workwear garments have Cordura® incorporated into them to enhance tear and abrasion resistance, due to the high quality, resilient Nylon yarns used to create it.

Workwear

No matter what your workday throws at you, our hard-wearing Workwear range will ensure you get the job done in style, combining great fit and comfort with advanced functionality.

Bisley WORKWEAR

FLX & MOVE™

BS6144

Flex & Move Utility Work Shirt

BPC6331

Flex & Move Stretch Cargo Utility Pant

Made to move with you.

The new generation Flex & Move range takes working and comfort to the next level.

Better fit and more stretch is what sets this Flex & Move range apart from any other Bisley workwear range.

The new addition of garment washing and enzyme washing ensures every Flex & Move shirt and pant has that soft worn in look and feel from the moment you wear it. Utility inspired pockets on the shirts will keep everything you need secure and in arms reach.

A stronger crotch gusset to prevent crotch splitting along with Kevlar® knee patches for increased durability and tough Cordura® reinforcements in all the right places will ensure these Flex & Move pants will withstand the toughest of jobs.

The new generation Flex & Move is a tough wearing range designed to move with you comfortably all day without restriction.

BS6177XT

Winter & Wet Weather

In wet and cold conditions, you need versatile and comfortable gear that will keep you warm and dry.

Our new wet weather jackets are designed to be lightweight but incredibly warm.

All Bisley waterproof garments are fully seam sealed and full of technical features like storm flaps, concealed hoods and adjustable sleeve cuffs for increased protection against the elements.

Pink

Bisley is proud to be continuing our Platinum Partnership with the National Breast Cancer Foundation (NBCF) as a Platinum Partner for the Real Men Wear Pink campaign, raising funds for research into the prevention of breast cancer.

Since the NBCF was established in 1994, more than \$105 million has been awarded to over 370 Australian-based research projects to improve the health and well-being of those affected by breast cancer.

NBCF has an aspirational goal of zero deaths from breast cancer by 2030. With 37 Australians diagnosed and 7 passing away every day, there is still much to do. Bisley has seen an opportunity to give back by creating a new range of Pink Workwear and donating \$3 from the sale of each Pink shirt in the range to the NBCF.

The Pink Workwear range includes two day and night compliant shirts and one night only compliant shirt in both men's and women's styles. All Pink Workwear shirts feature the Platinum Partner NBCF logo embroidered on the sleeve.

Size	74L	79L	84L	89L	94L	TRADITIONAL FIT	ACTIVE FIT
To fit chest size (cm)	87	92	97	102	107	Workwear garments are traditionally bigger in terms of fit compared to fashion or casualwear. Bisley garments are well known for their generous fit, providing greater comfort and movement when you work.	Bisley Active Fit shirts are one size smaller than the traditional fit. This is made possible due to the stretch component of the garment.
To fit chest size (inches)	34	36	38	40	42		
To fit waist size (cm)	77	82	87	92	97		
To fit waist size (inches)	30	32	34	36	38

Imperial size	3.5L	4.5L	5.5L	6.5L	7.5L	MODERN FIT	
NZ size	3L	4L	5L	6L	7L	Bisley Modern Fit shirts are half a size smaller than the Traditional Fit. Bisley Modern Fit pants/shorts are lower waisted (approx 4cm below true waist), half size bigger in the waist, half size smaller in the thigh, knee and hem opening.	
Bisley internal size code	32	33	34	35	36		

Sizing & How To Measure

- | MEN'S MEASUREMENTS | WOMEN'S MEASUREMENTS |
|---|---|
| 1. NECK: Measure around the neck where the top of the shirt collar would sit. | 1. BUST: Measure around the fullest part of the bust and shoulder, under the arms with your arms at resting position. |
| 2. CHEST: Standing naturally, measure around the fullest part of the chest and shoulder, under the arms with your arms at resting position. | 2. WAIST: Measure over undergarments at the natural waistline (usually approx. 1cm above the navel). |
| 3. WAIST: Measure over undergarments at the natural waistline (usually approx. 1cm below the navel). | 3. LOWER WAIST: Measure over undergarment approx. 4cm below the natural waistline. |
| 4. IN-LEG: Measure from crotch to floor, with shoes. | 4. HIP: Measure over undergarments at hips (usually the widest part and is approx. 25cm below the waistline). |
| | 5. IN-LEG: Measure from crotch to floor, with shoes. |

QUALITY GUARANTEE

Bisley Workwear garments are sourced, manufactured and tested by independent laboratories, to Australian Standards which ensure consistency of product and workmanship. Each Bisley Workwear garment is labelled with a barcode and identifying order numbers (to meet AS/NZS 4602.1:2011) so we can quickly trace the production processes used to manufacture your product, identify the issue and resolve it immediately.

This exemplary quality control process allows us to replace any garment which does not meet your quality expectations once you return it to us for inspection.

CORPORATE IDENTIFICATION

The Bisley Workwear Product team can help you develop a corporate identity that sets you apart from the rest. We can monogram, embroider, heat transfer or screen print your company logo onto almost any piece of Bisley Workwear clothing. Contact our Customer Service team or your local Sales Representative for further information.

Corporate identification may also entitle you to claim a tax deduction for your business. The Bisley Workwear Product team can provide you with information to ensure tax deductibility on your wardrobe.

BACK ORDERS

Stock service goods will be kept on back order at the customer's request.

MINIMUM ORDERS

Minimum 4 units per order policy, no surcharge.

CUSTOMER SERVICE HOURS

Sydney, Australia (8.15am - 5.00pm),
NZ (8.00am - 4.30pm), WA (8.00am - 4.30pm)

PRIORITY DELIVERY

For urgent deliveries, Bisley Workwear can provide a priority service where freight charges are calculated by size, weight, destination and speed of service required. Any additional charges are indicated on your order confirmation.

RETURNING PRODUCT

For all distributor initiated returns (where the customer has made an ordering mistake), a claim must be made within seven (7) days from receipt of the goods. An AUD\$20.00 (NZ\$10.00) handling fee will apply. Goods will only be accepted if they are in their original packaging and condition, free of any markings and damage. The customer will be required to pay for the freight back to the Bisley Workwear warehouse from which the goods were dispatched (Sydney/ Perth/ Darwin or Auckland). The original invoice number must be supplied before any claim can be processed.

WE WILL NOT ACCEPT THE RETURN OF GOODS IF

- Goods are damaged in the washing machine or dryer due to care instructions having not been followed correctly
- Goods suffering from normal wear and tear
- Goods that have been shop soiled or have discoloured due to lengthy periods of time in the store
- Goods that are discontinued products
- Goods that have had a customer-approved value-add, including embroidery, printing or custom taping

WE WILL CONSIDER CLAIMS FOR

- Goods damaged or lost in transit
- Goods that are faulty or defective as a result of faulty workmanship or materials

A Returns Authorisation Number (R.A.N.) must be obtained by contacting the Bisley Workwear Customer Service team who will explain the full returns process. Any goods sent without a R.A.N. will be returned to the customer at their cost. Bisley Workwear will accept freight charges on returned goods provided the return has been duly authorised by a company representative and the goods are returned via the carrier nominated by Bisley Workwear.
